INTRODUCTION

Income Security Programs Branch is pleased to present to researchers working in the field of social security a new publication entitled Historical Statistics on Canada Pension Plan.

The series are presented by province, month, fiscal and calendar year. The statistics include figures on revenues and expenditures, investment fund, number of benefits, benefit payments, maximum rates payable, and relevant averages and totals.

The present statist.cal publication was prepared by the Program Statistics Section of the Income Security Programs Branch using a personal computer and a well known spreadsheet computer software. Inquiries should be directed to:

Data Development and Analysis Division
Programs Policy, Appeals and Legislation Directorate
Income Security Programs Branch

INTRODUCTION

La Direction générale des programmes de la sécurité du revenu est heureuse de présenter aux chercheurs travaillant dans le domaine de la sécurité sociale une nouvelle publication intitulée Statistiques chronologiques sur le Régime de pensions du Canada.

Les statistiques sont présentées selon la province, le mois, l'année financière et l'année civile. Elles renferment des données sur les revenus et les dépenses, le fonds de placement, le nombre de prestations, les paiements de prestations, les taux maximums payables et les moyennes et totaux correspondants.

Le présent document statistique a été produit par la Section des statistiques des programmes de la Direction générale des programmes de la Sécurité du revenu, au moyen d'un ordinateur personnel et d'un logiciel de calcul électronique bien connu. Les demandes de renseignements devraient être adressées à la:

Division du développement et de l'analyse des donné
Direction des politiques, des appels et de la législation des programmes
Direction générale des programmes de la Sécurité du revenu

THE CANADA PENSION PLAN

The Canada Pension Plan is an integral part of the Canadian social security system. It enables millions of people to prepare financially for their retirement and to protect their families and themselves against loss of income due to disability or death.

The legislation establishing the Canada Pension Plan was passed in 1965. Collection of contributions commenced in January, 1966; the first retirement pensions were paid in January, 1967; the first survivor's benefits in February, 1968; and the first disability benefits in February, 1970.

The Plan is in force throughout Canada, except in the province of Quebec where a similar pension plan has been established. Together, they cover virtually all members of the Canadian labour force.

Credits under the Canada and Quebec Pension Plans are portable throughout Canada and benefit earned under the two Plans are payable regardless of residence or nationality.

The Canada Pension Plan is completely self-supporting. All benefits, as well as all costs incurred in the administration of the program are financed entirely from the contributions made by employees, employers and self-employed persons, and from interests earned from the investment of the funds.

LE RÉGIME DE PENSIONS DU CANADA

Le Régime de pensions du Canada fait partie intégrante du système canadien de sécurité sociale. Il permet à des millions de gens de se préparer financièrement pour leur retraite et de protéger leurs familles et eux-mêmes contre une perte de revenu occasionnée par une invalidité ou un décès.

La loi instituant le Régime de pensions du Canada a été adoptée en 1965. Les cotisations ont commencé à être perçues en janvier 1966 et les premières prestations versées sous forme de pensions de retraite ont été payées en janvier 1967. Les pensions de survivant et les pensions d'invalidité ont été versée pour la première fois en février 1968 et en février 1970 respectivement.

Le Régime est en vigueur dans tout le Canada, sauf dans la province de Québec qui a un régime de pensions semblable. Ensemble, ces deux régimes protègent presque tous les membres de la population active du Canada.

Les crédits acquis en vertu du Régime de pensions du Canada et du Régime de rentes du Québec sont transférables partout au Canada, et les rentes acquises dans le cadre des deux régimes sont payables sans égard à la résidence ou à la nationalité.

Le Régime de pensions du Canada est totalement indépendant. Toutes les prestations et tous les frais d'administration du programme sont entièrement payées à même les cotisations des employés, des employeurs et des travailleurs autonomes, et les intérêts provenant du placement de fonds.

Benefits payable under the Canada Pension Plan may be classified under three major headings: retirement pensions; survivors' benefits consisting of surviving spouse's pensions, orphans' benefits, and lump-sum death benefits; and disability benefits made up of pensions for disabled contributors and benefits for their dependent children.

Effective January 1, 1987, the plan will undergo many changes such as:

- increase in the contribution rate;
- continuation of survivor's benefits when there is a remarriage;
- increase in the flat-rate benefit of disability pension;
- easing the minimum contributory requirements of disability pension;
- expansion of division of unadjusted pensionable earnings to include marital separation and the breakdown of common-law relationships;
- assignment of retirement pension between spouses in an on-going marriage;
- a flexible retirement between the ages of 60 and 70, subject to actuarial adjustments and a test of cessation of employment prior to age 65.

Les prestations payables en vertu du Régime de pensions du Canada se divisent en trois carégories principales : les pensions de retraite; les pensions de survivant, c'est-à-dire les pensions de conjoint survivant, les prestations d'orphelin et les prestations de décès versées en un seul montant; et les pensions d'invalidité, c'est-à-dire les pensions pour cotisants invalides et les prestations destinées aux enfant à leur charge.

Le 1[er] janvier 1987, des changements seront apportés au Régime. Ces changements sont les suivants :

- augmentation dans le taux de cotisation;
- maintien des prestations de survivant lors d'un remarriage;
- augmentation dans la prestation à taux uniforme des pensions d'invalidité;
- assouplissement des exigences minimales en matière de cotisations pour les pensions d'invalidité;
- étendue du partage des gains non ajustés ouvrant droit à pension pour inclure les séparations et la dissolution des unions de fait;
- cession des pensions de retraite entre les conjoints dans un mariage qui dure;
- la retraite souple entre l'age de 60 et 70 ans, compte tenu de rajustements actuariels et d'une preuve de cessation d'emploi avant l'âge de 65 ans.

SOURCES AND LIMITATIONS OF DATA

Source of Data

Data were obtained from computer printouts developed in cooperation with, and tabulated by, the Canada Pension Plan Division of Supply and Services Canada; from tables supplied by Finance Canada; and from statistical tables prepared by Income Security Programs Branch of Health and Welfare Canada.

These printouts and tables have also been used to prepare the following publications:

- Canada Pension Plan Statistical Bulletin
- Monthly Statistics - Income Security Programs
- Canada Pension Plan Annual Report

Covered Population

All except for certain categories of people, such as members of the Armed Forces and the Royal Canadian Mounted Police, persons employed in the province of Quebec do not contribute to the Canada Pension Plan but to the Quebec Pension Plan. Data contained in this publication pertains only to the administration of the Canada Pension Plan.

PROVENANCE ET LIMITES DES DONNÉES

Provenance des données

Les données proviennent d'états mécanographiques produits en collaboration avec la Division du Régime de pensions du Canada d'Approvisionnements et Services Canada, et tabulés par cette même Division; de tableaux obtenus de Finances Canada; et de tableaux statistiques préparés par la Direction générale des programmes de la sécurité du revenu de Santé et Bien-être social Canada.

Ces états et tableaux ont aussi servi à la préparation des publications suivantes :

- Bulletin statistique du Régime de pensions du Canada
- Statistiques mensuelles - Programmes de la sécurité du revenu
- Rapport annuel sur le Régime de pensions du Canada.

Population représentée

Sauf certaines catégories de personnes, dont les membres des Forces armées et de la Gendarmerie royale du Canada, les personnes qui travaillent au Québec ne cotisent pas au Régime de pensions du Canada, mais plutôt au Régime de rentes du Québec. Les données contenues dans la présente publication ont trait uniquement à l'administration du Régime de pensions du Canada.

Homogeneity of Data

January, 1970 was chosen in most cases as the starting point for these historical series due to lack of disaggregation of data before 1970.

As of October, 1979 changes have been made in the compilation of statistics for Canada Pension Plan benefit payments. Prior to that date, the benefits were distributed, for statistical purposes, according to the province where the contributions were made, while now they are distributed according to the province of residence of the beneficiary. That explains why, since October, 1979, beneficiaries living outside Canada are no longer classified according to the province where their contributions were made but appear in the category "Outside Canada".

Year-end Adjustments

Adjustments are made in March of every year since 1974, to net out revenues and expenditures relating to the Quebec Pension Plan's share in respect of dual contributors, and the maintenance of the Central Index for Social Insurance Numbers. This explains variations in the data for the months of March. (See "Benefits" and "Revenues" in "Definitions of Terms").

Rounding of Data

Due to rounding, data may not add to the totals shown.

Homogénéité des données

Vu la dispersion des données avant 1970, la plupart des renseignements chronologiques fournis dans ce document sont présentés à compter de janvier 1970.

En octobre 1979, des changements ont été apportés dans la compilation des statistiques sur les paiements de prestations du Régime de pensions du Canada. Avant cette date, les prestations étaient réparties, aux fins des statistiques, selon la province où les cotisations étaient versées, tandis qu'aujourd'hui, elles sont réparties selon la province où réside le bénéficiaire. Voilà pourquoi, depuis octobre 1979, les bénéficiaires vivant hors du Canada ne sont plus répartis selon la province où ils ont versé leurs cotisations, mais inscrits plutôt sous la rubrique "à l'extérieur du Canada".

Rajustements de fin d'année

Tous les ans en mars depuis 1974, des rajustements sont effectués pour déduire les revenus et les dépenses liés à la part que verse le Régime de rentes du Québec à l'égard des cotisants aux deux régimes, et à la tenue du répertoire central des numéros d'assurance sociale. Cela explique les variations dans les données pour le mois de mars. (Voir les rubriques "Prestations" et "Revenus" dans la section "Définitions de termes").

Arrondissement des données

Les nombres étant arrondis, l'addition des données ne correspond par toujours aux totaux indiqués.

DEFINITIONS OF TERMS

Administrative Costs

Administrative costs are charged against the Canada Pension Plan Account by departments or agencies providing services.

Health and Welfare Canada is responsible for the general administration of the Canada Pension Plan Act while other departments or agencies share the following responsibilities:

- Revenue Canada for the collection of contributions;
- Supply and Services Canada for accounting and computer services, cheque issue and maintenance of Record of Earnings of contributors;
- Employment and Immigration Canada for the assignment of social insurance numbers and maintenance of central index;
- Public Works Canada for accommodation;
- Department of Insurance for actuarial services;
- Finance Canada for the administration of the Canada Pension Plan Account and the Investment Fund.

DÉFINITIONS DE TERMES

Frais administratifs

Les frais administratifs sont imputés au Compte du Régime de pensions du Canada par les ministères et les organismes qui assurent des services.

Santé et Bien-être social Canada est chargé de l'application générale de la Loi, tandis que d'autres ministères et organismes se partagent les tâches suivantes :

- Revenu Canada : la perception des cotisations;
- Approvisionnements et Services Canada : les services comptables et informatiques, l'émission des chèques et la tenue du Registre des gains des cotisants;
- Emploi et Immigration Canada : l'attribution des numéros d'assurance sociale et la tenue du répertoire central;
- Travaux publics Canada : les locaux;
- Département des assurances : les services actuariels;
- Finances Canada : l'administration du Fonds de placement et du Compte du Régime de pensions du Canada.

Benefits

- Benefit amounts

Represents the actual amount paid to Canada Pension Plan beneficiaries. This includes adjustments to benefits, returned cheques and retroactive payments. In March of every year since 1974, the amounts paid on behalf of the Quebec Pension Plan for its share in respect of dual contributors are netted out for the calculation of final expenditures for the fiscal year.

- Benefits in pay

Include any benefit paid during the month, that is, benefits paid for the first time during that month as well as benefits which commenced in a previous month and are still being paid.

- New benefits

Include only benefits which are issued for the first time. The month a new benefit becomes payable is determined to be the month in which the payment is first issued, which may be later than the effective month of that benefit.

Benefit Rates

The Canada Pension Plan Act provides for the amount to be paid for new benefits in January of each year. Table 5 shows the maximum monthly rate, by type, for new benefits from 1967 to 1986.

The benefit rates payable are determined as follows:

- Retirement: 25 percent of the average monthly pensionable earnings;

Prestations

- Montants des prestations

Les montants des prestations sont les montants réellement versés aux bénéficiaires du Régime de pensions du Canada. Les montants comprennent les rajustements de prestations, les chèques retournés et les paiements rétroactifs. Depuis 1974, en mars, la part qui est versée pour le compte du Régime de rentes du Québec, à l'égard des cotisants aux deux régimes, est déduite aux fins de calcul des dépenses définitives de l'année financière.

- Prestations en paye

Les prestations en paye comprennent toute prestation payée dans le mois, c'est-à-dire les prestations versées pour la première fois pendant ce mois et les prestations qui ont commencé à être payée un mois précédent et qui continuent de l'être.

- Nouvelles prestations

Les nouvelles prestations comprennent seulement celles qui sont émises pour la première fois. Le mois où une nouvelle prestation devient payable est le mois du premier versement, qui peut donc être postérieur au mois d'entrée en vigueur de la prestation.

Taux des prestations

La Loi sur le Régime de pensions du Canada prévoit le montant a être payé pour les nouvelles prestations en janvier de chaque année. Le tableau 5 présente le taux mensuel maximum, selon le genre, pour les nouvelles prestations, de 1967 à 1986.

Les taux des prestations payable sont calculés de la façon suivante :

- Retraite: 25 p. 100 de la moyenne mensuelle des gains ouvrant droit à pension;

- Disability: 75 percent of the retirement pension amount plus a flat-rate;
- Survivor aged less than 65: 37.5 percent of retirement pension amount plus a flat-rate;
- Survivor aged 65 or more: 60 percent of retirement pension amount;
- Lump-sum death benefit: 10 percent of Year's maximum pensionable earnings;
- Flat-rate: Amount determined by legislation and indexed every year;
- Orphan's and Child's benefits: Since the inception of the Canada Pension Plan, the amount paid has been equal to the flat-rate.

Combined Pensions

Applies to a person who receives a Survivor's pension together with a Retirement pension or a Disability pension. As each of these benefits is already counted in its own category, combined pensions are subtracted from the total to obtain the number of beneficiaries.

Investment Fund

The legislation provides for the investment of the funds that accrue from monthly contributions and interest income, less the estimated amount required to pay benefits and administrative costs over a three-month period.

These funds are made available to each province on the basis of the relationship between the contributions made to the Plan by, and on behalf of, residents of that province and the total contributions made to the Plan. The amounts that have been received from the Yukon and

- Invalidité: 75 p. 100 du montant de la pension de retraite, plus une prestation à taux uniforme;
- Survivant âgé de moins de 65 ans : 37,5 p. 100 du montant de la pension de retraite plus une prestation à taux uniforme;
- Survivant âgé de 65 ans ou plus : 60 p. 100 du montant de la pension de retraite;
- Prestation de décès versée en un seul montant : 10 p. 100 du maximum des gain annuels ouvrant droit à pension;
- Prestation à taux uniforme : montant déterminé par la Loi et indexé tous les ans;
- Prestations d'orphelin et d'enfant : depuis le début du Régime de pensions du Canada, le montant payé est égal à la prestation à taux uniforme.

Pensions combinées

Il s'agit d'une pension de survivant à laquelle s'ajoute une pension de retraite ou une pension d'invalidité. Étant donné que chacune de ces prestations est déjà comptée dans sa propre catégorie, les pensions combinées sont soustraites du total pour obtenir le nombre de bénéficiaires.

Fonds de placement

La Loi prévoit le placement des fonds accumulés grâce aux cotisations mensuelles et au revenu d'intérêts, moins le montant estimatif nécessaire pour verser les prestations et payer les coûts administratif pendant un trimestre.

Ces fonds sont mis à la disposition de chaque province, selon le rapport entre les cotisations versées au Régime par les résidents de la province ou en leur nom et le total des cotisations au Régime. Les montants reçus du Yukon et des Territoires du

Northwest Territories and from the Armed Forces personnel and other employees outside Canada are invested in securities of the Government of Canada.

Should a province not accept the full amount offered, the legislation also provides that such amount be invested in securities of the Government of Canada.

Investment Fund (Interest Rate on)

The applicable interest rate is the weighted average of market yields of Canada bonds having a term to maturity of 20 years or more.

Maximum Earnings and Contributions

All workers must contribute to the Canada Pension Plan in the proportion of their annual earnings between a minimum level known as the Year's Basic Exemption (YBE), and a maximum level called the Year's Maximum Pensionable Earnings (YMPE), both levels being adjusted annually. The level of Maximum Contributory Earnings (MCE) is the amount on which contributions are calculated, and it represents the difference between the YMPE and the YBE.

Up to the year 1986, employees have been contributing at the rate of 1.8 percent of their earnings within the contributory earnings band, with a matching contribution being made by their employers, while self-employed persons have been contributing at the rate of 3.6 percent of such earnings.

Starting from January, 1987, to the year 2011, the contribution rate will be gradually increased annually to a maximum level of 3.8% for employees and 7.6% for self-employed persons. No contributions are payable by persons receiving disability or retirement pensions under Canada Pension Plan.

Nord-Ouest et du personnel des Forces armées et d'autres employés à l'extérieur du Canada sont placés en titres du gouvernement du Canada.

Si une province n'accepte pas le plein montant offert, la Loi prévoit que le montant refusé est aussi placé en titres du gouvernement du Canada.

Fonds de placement (taux d'intérêt du)

Le taux d'intérêt en vigueur est la moyenne pondérée du rendement du marché des obligations du Canada dont le terme d'échéance est d'au moins 20 ans.

Maximum des gains et des cotisations

Tous les travailleurs doivent cotiser au Régime de pensions du Canada, en proportion de leurs gains annuels se situant entre les deux niveaux suivants : l'exemption de base de l'année (EBA), pour le niveau inférieur, et le maximum des gains annuels ouvrant droit à pension (MGAP), pour le niveau supérieur. Ces deux niveaux sont rajustés annuellement. Le niveau du maximum des gains cotisables (MGC) est le montant à partir duquel les cotisations sont calculées et représente la différence entre le MGAP et l'EBA.

Jusqu'en 1986, les employés ont versé des cotisations correspondant à 1,8 p. 100 de leurs gains, à l'intérieur de l'échelle des gains cotisables, et leurs employeurs ont versé une cotisation équivalente, tandis que les cotisations des travailleurs autonomes se sont élevées à 3,6 p. 100 de leurs gains.

A partir de janvier 1987 et jusqu'à l'an 2011, le taux de cotisation sera progressivement augmenté chaque année à un taux maximum de 3,8 p. 100 pour les employés et de 7,6 p. 100 pour les travailleurs autonomes. Les personnes qui touchent une pension de retraite ou d'invalidité en vertu du Régime de pensions du Canada sont exemptées de la cotisation.

Although contributions are only required on earnings between the YBE and the YMPE, earnings-related benefits are calculated, taking into account all earnings from the first dollar up to, and including, the applicable YMPE.

In January, 1975, a new formula for computing the YMPE was introduced with a view to restoring gradually the original relativity between the YMPE and average wages. The formula provided for the YMPE to rise each year at the rate of 12.5 percent until it equals the average earnings of Canadian workers, as represented by the Industrial Composite of weekly wages and salaries published by Statistics Canada.

In accordance with this formula, the YMPE was increased each January from 1976 to 1985 at the rate of 12.5 percent and reached the average wage in 1986. Starting in 1988, the annual increase in the YMPE will be based on the average increase from the preceding year of the Wage Measure, defined as the average weekly wage and salaries published by Statistics Canada.

Also in 1975, the YBE was set at 10 percent of the YMPE (rounded down to the nearest $100).

Pension Index and Escalation Rates

Benefits are escalated in January of each year to reflect the full increase in the cost-of-living in the previous twenty-four month period ending in October, as measured by the Consumer Price Index (CPI). The pension index for any year represents the average of the CPI for the previous twelve month period ending in October.

Bien que les cotisations soient perçues uniquement sur les gains se situant entre l'EBA et le MGAP, le taux des prestations afférentes aux gains est calculé en fonction de la totalité des gains, sans toutefois dépasser le MGAP fixé pour l'année.

En janvier 1975, une nouvelle formule de calcul du MGAP a été adoptée en vue de rétablir progressivement le rapport initial entre le MGAP et la moyenne des salaires. Selon cette formule, le MGAP devrait être majoré de 12,5 p. 100 tous les ans jusqu'à ce qu'il atteigne la moyenne des gains des travailleurs canadiens, comme le représente l'indice industriel des salaires et traitements hebdomadaires publié par Statistique Canada.

Conformément à cette formule, le MGAP a été relevé de 12,5 p. 100 en janvier de chaque année, de 1976 à 1985, et a atteint la moyenne des salaires en 1986. A partir de 1988, l'augmentation annuelle du MGAP sera établie en fonction de l'augmentation moyenne, par rapport à l'année précédente, de la mesure des salaires, qui est définie comme la moyenne des salaires et des traitements hebdomadaires publiée par Statistique Canada.

Aussi, en 1975, l'EBA a été fixée à 10 p. 100 du MGAP (arrondi au 100 $ inférieur le plus près).

Indice de pension et taux de relèvement

Les prestations sont relevées tous les ans en janvier, en fonction de la hausse totale du coût de la vie durant la période précédente de 24 mois échue en octobre, selon les indications de l'indice des prix à la consommation (IPC). L'indice de pension pour n'import quelle année correspond à la moyenne de l'IPC pour la période précédente de 12 mois échue en octobre.

The escalation factors are calculated by dividing the Pension Index for the current year by that of the previous year.

Province

For the definition of "province", see "Homogeneity of Data" under "Sources and Limitations of Data".

Revenues

Revenues of the Canada Pension Plan comes from contributions received from employees, employers and self-employed persons, and interests on funds invested.

Interests on Investments represent the revenues received as interest payments on funds borrowed by each province or invested in federal securities according to the rates at the time of purchase of those funds, while interests on the operating balance represent interests on the amount of money required to run the Plan for the next three-month period (see also Investment Fund).

The category "Other Revenues" is mainly used to register recoveries from the Quebec Pension Plan's share in benefit payments in respect of dual contributors, and Quebec's share of the cost of maintaining the Central Index for Social Insurance Numbers. Since 1974, these transactions are netted out in March of every year for the calculation of final revenues for the fiscal year.

Les facteurs de relèvement sont calculés en divisant l'indice de pension de l'année en cours par celui de l'année précédente.

Province

Pour la définition du terme "province", voir la partie "Homogénéité des données" dans la section "Provenance et limites des données".

Revenus

Les revenus du Régime de pensions du Canada se composent des cotisations des employés, des employeurs et des travailleurs autonomes, et des intérêts provenant des fonds placés.

Les intérêt de placement sont les montants reçus en intérêts sur les fonds empruntés par chaque province ou placés en titres fédéraux selon les taux en vigueur au moment de l'achat de ces fonds, tandis que les intérêts du solde d'exploitation sont les intérêts que rapporte le montant nécessaire pour exploiter le Régime pendant le trimestre suivant (voir aussi "Fonds de placement").

La catégorie "Autres revenus" est surtout employée pour consigner les recouvrements de la part du Régime de rentes du Québec dans les paiements de prestations aux cotisants aux deux régimes, et de sa part des frais de tenue du répertoire central des numéros d'assurance sociale. Depuis 1974, ces transactions sont déduites en mars aux fins de calcul des dépenses définitives de l'année financière.

EXPLANATORY NOTES

Table	Note	Description
1	(1)	Because of adjustments made at the end of each fiscal year, figures are sometimes nil or negative (see also Revenues in "Definitions of Terms").
5	(1)	Rates for the month of December are shown because they represent the highest amount payable during the specified year. To receive the maximum benefit, one had to have contributed at least 120 months for Retirement pension and 60 months for Disability pension.
5	(2)	Prior to 1978, each of the first three orphans or children in receipt of a benefit received the full benefit, while each of the 4th and subsequent children received half of that benefit.
5	(3)	The figures represent the maximum amount of the full Retirement pension to be used for the calculation of the earnings related portion for other benefits prior to 1976.
5	(4)	Flat-rate portion to be used for the calculation of Disability or Survivor's pensions.
6	(1)	The Consumer Price Index average shown is the average of the Consumer Price Index for the previous twelve-month period ending in October.

NOTES EXPLICATIVES

Tableau	Note	Description
1	(1)	Étant donné les rajustements effectués à la fin de chaque année financière, les montants sont parfois nuls ou négatifs (voir aussi "Revenus" dans la section "Définitions de termes").
5	(1)	Les taux du mois de décembre sont indiqués parce qu'ils représentent le plus gros montant payable pendant l'année signalée. Pour toucher le maximum de la prestation, le bénéficiaire devrait avoir cotisé pendant au moins 120 mois, pour une pension de retraite, et 60 mois, pour une pension d'invalidité.
5	(2)	Avant 1978, les trois premiers orphelins ou enfants qui recevaient une prestation touchaient chacun le plein montant de la prestation, tandis que les enfants suivants recevaient chacun la moitié du montant de la prestation.
5	(3)	Représente le maximum de la pleine pension de retraite à inclure dans le calcul de la partie afférente aux gains pour les autres prestations avant 1976.
5	(4)	La prestation à taux uniforme qui doit servir au calcul de la pension d'invalidité ou de survivant.
6	(1)	La moyenne selon l'indice des prix à la consommation qui est indiquée est la moyenne de cet indice pour la période précédente de 12 mois échue en octobre.

6 (2) Since 1974, the Pension Index for the year is the Consumer Price Index average. Prior to 1974, the Pension Index was limited to an increase of no more than 2 percent a year.

6 (3) Prior to 1974, benefits were limited to increases of no more than 2 percent a year.

6 (4) Changes in legislation effective January, 1974, provided for full escalation of benefit in line with the increases of the Consumer Price Index (CPI). Benefits in pay at the end of 1973 were adjusted to reflect the full increase of the CPI before the 1974 escalation rate was applied.

7 (1) The terms "Year's Maximum Pensionable Earnings" (YMPE), "Year's Basic Exemption" (YBE), "Maximum Contributory Earnings" (MCE), and "Employee's Contribution" are explained in the section "Definitions of Terms", under Maximum Earnings and Contributions.

7 (2) The figures represent the average of the Year's Maximum Pensionable Earnings for the current year and the two previous years.

6 (2) Depuis 1974, l'indice de pension pour l'année est la moyenne selon l'indice des prix à la consommation. Avant 1974, l'indice de pension était limité à une hausse d'au plus 2 p. 100 par année.

6 (3) Avant 1974, les prestations étaient limitées à des relèvements d'au plus 2 p. 100 par année.

6 (4) Les modifications législatives adoptées en janvier 1974 prévoyaient le plein relèvement de la prestation en fonction de la hausse de l'indice des prix à la consommation (IPC). Les prestations payées à la fin de 1973 ont été rajustées d'après la hausse totale de l'IPC avant l'entrée en vigueur du taux de relèvement de 1974.

7 (1) Les termes "maximum des gains annuels ouvrant droit à pension" (MGAP), "exemption de base de l'année" (EBA), "maximum des gains cotisables" (MGC) et "cotisation de l'employé" sont expliqués dans la section "Définitions de termes", sous la rubrique "Maximum des gains et des cotisations".

7 (2) Représente la moyenne du maximum des gains annuels ouvrant droit à pension pour l'année en cours et les deux années précédentes.

SYMBOLS
